PROFILE

UI Developer with more than three years developing personal websites, corporate websites and ecommerce websites, both in agencies and as a freelancer.
I'm looking to improve my skills in what I have found that is my passion, in frontend.

EXPERIENCE

UI DEVELOPER (FREELANCE)
Independent   2021 - present

At this stage, I work as a UI Developer with html/css/js, I use the Sass's preprocessor, alongside with Bem's nomenclature methodology.
I also develop self-managed websites in wordpress and woocommerce.

WEB DEVELOPER
Mediapaq   2019 -2020

Development and maintenance of landing pages, corporate websites and microsites with wordpress, as well as ecommerces with woocommerce.
Database and server maintenance.
This position imposed a high responsibility as I was the main person in charge of the creation of the websites along with an excellent design team.

WEB DEVELOPER
Corenti   2018 -2019

Maintenance of websites developed in wordpress.
Newsletters's layout for mailing campaigns.
Creation and layout of landing pages, corporate websites and microsites with wordpress and through templates in html, css or bootstrap.
Development of ecommerces with woocommerce.
